Introduction

Dedicated and results-driven MCA graduate with a strong foundation as a Full Stack Developer and Software Engineer. Proficient in crafting responsive user interfaces and robust backend systems using technologies such as HTML, CSS, JavaScript, C#, Python, Java and SQL. Passionate about staying updated with emerging technologies and delivering high-quality, innovative software solutions.

Experience

Zidio Development – Web Developer Intern

- Built a Task Management application using MERN stack (MongoDB, Express.js, React.js, Node.js)
- Implemented task assignment, status tracking, and role-based access control (Admin, Manager, User)
- Designed a responsive and user-friendly interface
- Built seamless frontend-backend integration using RESTful APIs
- Used Git and GitHub for version control and team collaboration

Finpro Technologies – IT Security Analyst Intern

- Worked on BCPDR (Business Continuity & Disaster Recovery) system using PHP and MySQL
- Developed modules: Employee, Company, Asset, and System Management
- Implemented role-based access control, audit logging, and data validation for secure data handling
- Streamlined workflows for vendor management and risk tracking
- Contributed to building a scalable and reliable system architecture

Projects

FitnessFinds (HTML, CSS, JavaScript, ASP.NET, SQL Server)

- Developed a full stack e-commerce web application for product browsing and order management
- Engineered a structured product catalog system with database support
- Architected features for user registration and gym membership integration

Pitshop (HTML, CSS, JavaScript, Bootstrap, PHP, MySQL)

- Designed an e-commerce platform for bikers to browse and purchase products
- Designed a responsive frontend UI using Bootstrap
- Implemented backend logic using PHP and MySQL for secure product and order management

Event Management System (ASP.NET, SQL Server)

- Created a web application for user registration, login, and event booking
- Implemented features to book organizers, photographers, and travel guides
- Built product selection and purchase module with database integration

Other Projects

- **Bike Showroom Management System (VB.NET)** – Developed system for managing vehicle inventory and sales
- **Furniture Shop Management System (ASP.NET)** – Built application for product management and customer orders
- **Food Ordering System (ASP.NET)** – Created online food ordering with cart and billing

Education

Kristu Jayanti College Bengaluru, MCA – CGPA : 8.66	2023 - 2025
Kristu Jayanti College Bengaluru, BCA - CGPA : 8.88	2020 - 2023
East Point Pu College Bengaluru, CEBA – Percentage : 85%	2018 - 2020
Emmanuel Sugunana Jyothi High School, State - Percentage : 75%	2018

Certificates

- Robotic Process Automation through PayPal
- Aptech certificate In Web Designing, Microsoft Office.
- Java Foundation Course By Oracle
- ASP.NET Core MVC Course through Infosys SpringBoard
- Data Analytics Essentials Course By Cisco
- Technology Software Development Job Simulation by Citi
- Software Engineering Job Simulation by Hewlett Packard Enterprise
- Solution Architecture Job Simulation by AWS

Skills

Core Skills: ASP.NET, MERN Stack, Backend Development, ReactJS, Node.js, SQL, REST APIs

Programming Languages: Python, Java, C, C++, C#, JSP, PHP, VB.Net

Web Development: HTML, CSS, JavaScript

Database Management: SQL, MySQL, SQL Server, MongoDB

Mobile Development: Flutter

Tools & Technologies: Git, GitHub, VS Code

Software Proficiency: MS Office Suite (Excel, Word, PowerPoint)

Soft Skills

- Leadership and Communication
- Strategic problem solving
- Innovative Mindset
- Adaptability
- Stakeholder Management
